MUNICIPAL COMMISSIONER,
BANGALORE CITY

GENERAL 5 APR

To

R Ranga Rao, Esq., B A., B.L.,
Secretary to the Govt. of Mysore,
General Department, Bangalore.

Sir,

With reference to your letter No.L.6326/M1.81-29 dated 28/30th March 1933 requesting me to state in what stage the question of metering unmetered water connections in Bangalore City stands at present, I have the honour to state that it is anticipated that about 5,000 meters will be required for metering all the connections,and taking the average cost of metering a connection at Rs.30, the amount required will be about Rs.150,000. The Council have not yet come to a decision as to whether they should adopt the system of metering or the flat rate system somewhat on the lines in Mysore. Granting that they may decide in favour of the metering system a sum of Rs 150,000 is included in the loan of Rs.10 lakhs proposed to be raised by the Municipality The Secretary, Stores Purchase Committee has also been requested to call for tenders from several firms quoting the rates for meters so that the information may be readily available in case the Council decide in favour of meters, and I believe he has the information ready

2 As to the arrangements made for payment of the contribution due by the Municipal Council in accordance with your office letter referred, Government while sanctioning the budget for 1932-33 have made a provision of Rs 3 lakhs on the expenditure side for payment on account of water supply. This is more than

ample

ample to pay for the extra cost on account of water.

I have the honour to be,
Sir,
Your most obedient servant,

Municipal Commissioner

Water Supply in Bangalore City

Sir,

I have the honour to state that since the starting of service from Sri Chamarajendra Water Works at Thippagondanahalli, the daily consumption of water in the Bangalore City has risen from an average of two million gallons to 3 2 million gallons on an average and yet there are complaints of insufficient supply Since the Municipality have to pay for this water the Executive Engineer, Water Supply Division wrote to the Commissioner apprising him of their liability but has so far not received a reply from that officer

According to the agreement relating to the Civil and Military Station supply, we have bound ourself that no preferential treatment would be shown to the City area, it is therefore requested that the question of payment for water supplied to the city since the opening of the new works be settled early
